

Philanthropy: MZFF recognised at TLC Ambulance Launch

The MZFF is extremely proud to be a foundation sponsor of the TLC Ambulance Project – an initiative developed by TLC for Kids in collaboration with Ambulance Victoria. This project will enable terminally ill children to be transported to a final destination of their choice – under the care of a full volunteer ambulance crew. The MZFF has donated \$150,000 over three years to help bring this project to life. ST co-founder Bozena Zembrzuski was invited to speak at the official ambulance launch.
