## ONCOTYPE DX RESULTS

Due to COVID-19 restrictions, we cannot assure transport times. However, results are estimated to be available within 21 business days from when all the completed documentation has been received by ST. You will receive an email from Exact Sciences when the results are available to review via the Exact Sciences Portal.

A notification email is sent when results are posted to the Genomic Health online secure portal: <https://online.genomichealth.com/Login.aspx>  
Login details are provided when the ordering physician orders their first Oncotype DX test. The login details are then established for all future orders.
